Summary

Achiever, relator, analytical, and highly focused on achieving extraordinary results through direct and fluid communication, proactivity, and hard work.

At age 18, he co-founded a company where he worked in team management and found deep satisfaction in working with friends to achieve goals. During his participation as a manager, he generated with his team more than US\$ 250,000 in revenue through digital launches, sales funnels, and sales campaigns.

Currently pursuing a front-end software engineering career and focusing on Next.js and Algorithm.

Gabriel can stay focused on the project, take direction, move forward, and make the necessary corrections to stay on track.

Experience

Co-Founder

Duo Market

Aug 2019 - Dec 2021 (2 years 5 months)

Duo Market is an American Financial Education Company that teaches Brazilians to invest in the US. Gabriel was responsible for leading the marketing team and managing the company's processes. The company generated over \$250,000 in revenue and an EBITDA of over 60% during his participation.

- Planned, developed, and executed more than nine digital launches that reached more than 10,000 thousand people.
- Assisted in the construction of sales channels that together had more than 40,000 thousand people.
- Worked in the development and maintenance of internal processes through methodologies such as sprint and Kanban.
- With his team, he reached more than 1,000 students in several products related to the American Stock Market.

Education

Valencia College

Associate of Arts - AA, Computer Science

Jan 2022 - Jan 2024

Currently taking the necessary classes to study computer science at University of Central Florida.

University of Central Florida

Boot Camp Full Stack Web Development, Fullstack Web Development

Sep 2021 - Dec 2022

Immersive Full Stack Web Development Bootcamp where Gabriel mastered the fundamentals of HTML,

CSS, JavaScript, RESTFUL APIs, SQL with MySQL, NoSQL with MongoDB, PWA fundamentals, Computer Science fundamentals, React, GraphQL, and the MERN stack. During the Coding Boot Camp, he had the opportunity to carry out more than 15 individual projects and build 3 group applications, where he got to know a little more about how it is to work in a team through Github.
